What would you expect from an automobile? Your main expectation would be comfort and safety for the auto mobile in which your hours.

From the simplest bearing to the most complicated one, all bearings have an impact on comfort and safety of the automobile. Das Lager warrants comfort and safety of all bearings used in an automobile. That is because Das Lager prepares the bearing appropriate bearing in accordance with the automobile's - i.e. your - needs. That is because Das Lager utilizes the superior German engineering using the state-of-the-art technology.

As of the moment you decide to use Das Lager bearings, our technical support team is ready to provide any kind of help and warranties. That is because Das Lager cares for its user and desires his/her benefit.

Welcome to Das Lager family who adopted safety, quality and environment - friendliness as principles.

Das Lager has been created as a new spark on the top of the bearing market by the harmonization of many years experiences with requirements of today and future. Das Lager Bearings was commenced to the journey in Dusseldorf-Germany and offering the highest quality of German engineering and design on each and every single product.

Das Lager Bearings are specially designet and produced in three different production facilities in Europe as Made in Europe. Our bearings are designet according to end users requirements by engineers and designerswho experienced on hydraulic industry, bearings and components. Each and every design has simulated, virtually runned, tested and produced to reach perfection of customer satisfaction.

Das Lager Bearings are meeting the highest technological designed need of our customers by the European design and made products. Das Lager Bearings has offering a wide range of high performance automotive, cylindirical, spherical bearings tothe world market.

Beside of high quality 2, 4 or multi row cylindrical bearings, railway bearings and turbine bearings, Das Lager Bearings are offering custom made bearings in a short delivery with highest performance.
